Yurii Zaika

AI / Python Engineer

Ten years of production engineering, now applied to Python and ML. Built a real-time speech pipeline: faster-whisper on CUDA, pyannote diarization, VAD and streaming, with regression measurements of latency and real-time factor (RTF). Alongside it: tooling for LLM agents (MCP servers, custom subagents, a CDP browser inspector) and data pipelines on SQLAlchemy and Playwright.

27 — repositories in 2026: freelance and personal projects
6 sources — in the listings pipeline: OLX, LUN, Rieltor, Metrazh, Telegram, FB
10 years — in production retail systems, 2016 to now

LOCATION

Dnipro, Ukraine · remote or hybrid

KEY SKILLS

PYTHON
Python 3.11 · FastAPI · SQLAlchemy 2 · pytest

SPEECH AND ML
faster-whisper (CUDA) · pyannote.audio · VAD · PyTorch / GPU

DATA
PostgreSQL · Playwright

AI AGENTS
Claude Code · MCP servers

LANGUAGES

Ukrainian — native
English — technical documentation and written communication

EDUCATION

Computer Engineering · computer systems and networks — Zaporizhzhia Institute of Economics and Information Technologies

EXPERIENCE

2026-03 — present

Independent developer, Personal projects and freelance, Dnipro · remote

– A real-time speech pipeline: faster-whisper on CUDA, pyannote diarization, VAD, WASAPI capture.
– And a regression suite for it: RTF, latency under load, noise robustness, quality ceilings — decisions come from measurements, not impressions.
– A listings pipeline over six sources with geocoding, deduplication and catalog publishing through GitHub Actions.
– Daily work with AI agents: MCP servers, custom subagents and hooks, and my own CDP browser inspector as agent tooling.

2016-06 — present

Senior Application Developer, ATB-Market (Ukraine's largest grocery retail network), Dnipro

– Since 2018 also build internal services on ASP.NET Core and Angular: access, audit, reporting, integrations — 33 of the network's systems I built or extended.

Earlier: Full Stack Developer, Freelance and private practice (2015–2016) · Programming Instructor, Modern Professions Courses (2015–2016) · Software Engineer, Kryvyi Rih Iron Ore Combine (2013–2016) · Developer, OSSystem (2012–2013)
