Yurii Zaika

Senior Software Engineer · .NET & Delphi

Ten years inside the core systems of ATB-Market, Ukraine's largest grocery retail network: ASP.NET Core services that keep taking over functions from the Delphi trading platform the stores run on daily. Access control for 2,000+ users, fiscal and EDI integrations, and an ongoing Delphi 6 to Delphi 12/13 client migration.

10 years — in production retail systems, 2016 to now
2 000+ — users on the access system I built
33 — internal systems of the network I built or extended
